AAC CLARA ADUTWUMWAA AMA

PROFESSIONAL SUMMARY

A detail-oriented graduate with a substantial background in the field of Biological Sciences, seeking to learn, gain and apply experience in my line of work. Creative person with extensive project experience in the Biological discipline. I exhibit strong communicational, interpersonal, and relationship-building skills.

EDUCATION

Kwame Nkrumah University of Science and Technology, Ghana
Bachelor of Science, Biological Sciences September 2017–November 2022

Kumasi Girls Senior High, Ghana
General Science September 2014–September 2017

WORK EXPERIENCE

Assistant Laboratory Technician (National Service)
Biotechnology, Seed and Postharvest (Molecular Biology)
September 2022–Present
Council for Scientific and Industrial Research, Crops Research Institute,
Fumesua-Kumasi, Ghana

- I assisted Laboratory Technicians to maintain an aseptic working environment and prepping the laboratory towards an activity
- Assisted in conducting Quantitative Polymerase Chain Reaction (qPCR) and Conventional Polymerase Chain Reaction based activities for genetic diversity studies, Marker Assisted Selection (MAS) and Molecular Diagnostics of plants.
- I was actively involved in sample collection and nucleic acid isolation towards PCR analysis.
- I assisted in the preparation of buffers and stock solutions, equipment maintenance, routine checks of fridges and freezers for proper functioning.
- I assisted Technicians to supervise Undergrads and Postgraduates' laboratory research activities.
- I also played a key role during demonstration of lab- based activities to visiting students and Agricultural oriented institutions
- I assisted the technical team with data entry, analysis, report writing and record keeping
- I conducted quality assessment of nucleic acids via quantification using a Nanodrop Spectrophotometer 2000c and agarose gel electrophoresis
- I assisted in the visualization and capturing of PCR products on Agarose and Polyacrylamide gels using UV transilluminator

Microsoft Office Suite

Sunyani Regional Hospital, Ghana

Laboratory Intern June 2018 – August 2018

June 2019- August 2019

- I assisted in the preparation and processing of samples using various laboratory equipment
- I played a key role in the documentation of all activities and reported back to management
- I maintained an aseptic ad organized working environment and prepping the laboratory towards an activity
- I was actively involved in labelling and sorting of samples to enable traceability and accuracy
- I assisted in pathogen identification using a microscope

RESEARCH EXPERIENCE

Undergraduate Thesis: January 2020 – August 2020

Prevalence of Schistosomiasis in communities around Lake Bosomtwe

---

REFEREES

Name: Prof. Bernard Walter Lawson

Affiliation: Kwame Nkrumah University of Science and Technology

Position: Professor

Tel: +233275200591

Email: bwllawson.cos@knust.edu.gh

Name: Dr. (Mrs) Ruth Naa Ashiokai Prempeh

Affiliation: Council for Scientific and industrial Reserch- Crops Research Institute

Position: Senior Research Scientist
